

The Kitchen Cultivator™

No more soggy supermarket herbs going bad in your fridge. With the Kitchen Cultivator you can grow whatever herbs and greens you like, all year long! Once you start harvesting fresh cut greens you'll never go back to buying herbs again.

Growing Your Own Makes Sense

The locavore movement is gaining momentum for a reason. Sustainable food production is a must as we move into a greener and fresher future. Save money AND save the planet by cutting your food costs and growing your own.

"16% of the world's energy is spent on food transportation"

The Commercial Cultivator™

Your customers are looking for freshness, and with the Commercial Cultivator you can cut fresh greens and herbs moments before they hit the plate. Plus, the worry free control center makes sure your greens stay healthy and fresh.

Growing Your Own Makes Money

The Commercial Cultivator can cut herb and micro-green costs in your restaurant by up to 90%, literally paying for itself in just months! Sustainability really can go hand in hand with your bottom line.

**4 Flats Per Week X \$30 Per Flat
= \$460 Savings Per Month!***
